**CHRISTIAN REVIVAL PROGRESS.**

Great Series of Meetings Planned for Sunday—Special Services for Men and Women.

Rev. T. C. Ferguson preached at the morning service in the gospel tent yesterday morning, his subject being "The Limitations of Omnipotence." Mrs. Ferguson sang a solo: "No Night There."

At the night service Evangelist Boen preached on "The Character of Judas," presenting a novel view of this universally execrated personality according to which the betrayer of Our Lord was no worse than an ordinary man, he was a hail-fellow-well-met, "one of the boys," and having no idea that the enemies of Jesus could take him, thought he could take the thirty pieces of silver and be that much ahead, with no harm to his master. The musical feature of this service was a duet, "I am Happy in Him," by Mrs. Martin and Prof. Parnell.

The subject of Dr. Boen's sermon Sunday at 11 a. m. will be "Why Four Instead of Fourteen Gospels." Prof.

Parnell will sing a solo "Face to Face."

Sunday afternoon at 4 o'clock there will be a special service for women only to which every mother and every mother's daughter is cordially invited.

Sunday night at 8:15 there will be a great mass meeting for men only at the tent and at the same time a special service for women in either the Baptist or the Methodist church. All who love good music appreciate the splendid solos, duets, quartettes, and most of all the grand congregational singing, which is especially fine, should not fail to attend. Singers of all the churches are in the chorus, and all the pastors are co-operating in the revival work.

**SCHOOL TAX ELECTION.**

Anelection has been ordered in the Edge school district to determine the question of a 20 cents additional tax levy for school purposes in order to provide for a nine months term. The election will be held June 13 at Liberty school house with Jas. Wilson as presiding officer.

Chief C. M. Watkins of Abilene, Rev. Harry Hawkins of Taylor and other firemen of politics into the convention. Several were on their feet instantly vehemently protesting against the injection of were talking at once—some favoring, others opposing Bryan's motion—when President Andrews ruled the convention would have nothing to do with politics. BY CARNES & WALLACE

BRYAN, TEXAS, MAY 16, 1908.

Never since the apostolic age has the missionary spirit been as strong and so militant as it is today.

It is an off day now when one or more states does not instruct for Bryan. Minnesota alone stands by her favorite son.

A New Jersey church has reached the limit in inducements to men to attend; it permits them to smoke during the services.

There were 166 Bryan delegates in Governor Yonson's own state. So far there have been no Johnson delegates in any other state.

Will H. Atwell of Dallas is willing to accept the Republican nomination for governor, provided the Republicans will unite. He is too exacting.

Americans seem to glory in the reputation of being the most prodigally wasteful people on earth. There must be a reformation or the limit will soon be reached, and then—ruin.

It is said that Mrs. Hettie Green dislikes notoriety. Evidences that she is a sensible woman were not lacking before, but if they had been one would be sufficient.

Secretary Taft's friends claim that foreign travel has broadened him. He is broad—immensely so, but was it the foreign feed that did it? We had an idea that American vittles was as good as any.

The Federation of Women's clubs in Fort Worth adopted a resolution asking the street commissioners to cut the limbs off the trees to the height of six feet so as not to be in the way of the Merry Widow hats.

According to a recent report from Galveston, Shipments of Texas onions through that port amounted to \$7,700 crates, valued at nearly \$100,000, for the week ending May 9. Texas onion growers can afford to laugh at the boll weevil.—Farm and Ranch.

Maj. Mose Harris is leading the fight against Col. Cecil Lyon in the Republican party. Whatever else may be said of Maj. Mose it cannot be denied that he has the courage of his convictions. He even dares to beard the Lyon himself.

Foraker was trimmed completely of his war paint and feathers in connection with the Brownsville negro soldier bill in the senate. Between the ministrations, repugnants and the negroes he was backed clean off the dump, and the bill goes over to the next term of congress ostensibly, but in reality to oblivion.

Before the era of railroads the navigable rivers of Texas were valuable arteries of commerce. Big steamboats plied on the Sabine, the Neches, the Trinity, the Brazos and the Gaudaloupe. A cleaning out of these choked up natural highways would go very far in relieving the condition of commerce.

Passenger Agent T. J. Anderson of the H. & T. C. gives notice that effective today, May 16, the night train service on the H. & T. C. between Bremond and Waco will be resumed with sleeper accommodations and practically the same schedule. This will be a great convenience to the traveling public, and may also be regarded as a sign of improving conditions.

## THIRD AND LAST.

### Interesting Proceedings on Final Day of Conference.

Washington, May 15.—The third and last day of the conference of governors began with every indication of important action as the result. A full attendance was present when President Roosevelt called the conference to order at 10:15 o'clock.

Governor Blanchard of Louisiana, chairman of the committee on resolutions, at once asked for and received recognition to present the report of his committee. This report, which was an extended document, embraces recommendations along general and broad lines, avoiding specific recommendations for national or state legislation. It heartily commends action of President Roosevelt in calling the conference and recommends that future conferences of like character be called by the president at such times as condi-

GOVERNOR N. C. BLANCHARD.

tions warrant and his judgment shall sanction. Legislation by congress and states is suggested, not specifically, but along general lines, to further the ends sought. It is also suggested that the states individually put the subject into hands of a competent commissions. The resolutions were received with hearty approval by the conference.

The conference adopted without an opposing vote the declaration of principles which suggest present call future conferences, but provides for no permanent organization.

The following resolution, offered by Hon. William Jennings Bryan, was, at President Roosevelt's suggestion, adopted by acclamation:

Resolved, That this conference expresses its deep regret that ex-President Cleveland is prevented by sickness from participating in this historic meeting and expresses its sincere wish for his speedy recovery.

The president thanked the members of the conference for the manner in which they had performed their labors, and presented Mr. Bryan, who made an address.

The conference, after arranging the papers prepared to be read should be printed in the record without reading, adjourned sine die at 12:45 o'clock.

### TWO CARS OF POTATOES.

Farmers of Cottonwood, Harris School, Tabor and Kurten Communities

Brought in 480 Sacks Yesterday.

Two carloads of fine Brazos county Irish potatoes were brought in to market yesterday by the farmers of Cottonwood, Harris School, Kurten and Tabor neighborhoods. They were concentrated and sacked at the large wharf of the Bryan Press company, affording plenty of room, and the scene presented was a busy one. The potatoes were for the most part uniform in size, sound and merchantable, and a credit to those who grew them and the trucking qualities of the soil in those neighborhoods.

Among the farmers who contributed to the shipment are W. L. Edge, J. P. Gilpin, F. S. Baker, S. E. Locke, Wm. Hudspeth, George Mainord, Gus Stevener, J. D. Castle, P. P. Carroll, T. M. Turner. The sale of the shipment was placed in the hands of J. D. Castle and J. Webb Howell.

The Eagle learns that highly satisfactory results were obtained by the farmers who used commercial fertilizer in producing their potato crop, and that those who used commercial fertilizer obtained fifteen bushels more per acre than those who used barn manure.

As the Eagle has said frequently, we hope that every experiment in diversified crops in this county will be successful, and that every possible encouragement will be extended to the truck growing movement.

### TELEGRAPHERS CHANGED.

The Eagle learns that an order from the chief dispatcher of the H. & T. C., effective yesterday, has changed the three truck service of telegraphers at the H. & T. C. depot here, the services of the third truck man being discontinued at this point.

Mr. W. W. Harris' hours will be from 7 a. m. to 7 p. m., and we are advised that he will handle all ordinary railroad and commercial messages as heretofore, but no train orders or train reports, this being done from smaller stations north and south.

Mr. S. H. Harris' hours will be from 7 p. m. to 7 a. m., and he will handle train orders and reports and do telegraph work as heretofore.

This reduces the force here to two men, and apparently puts the eight hour law out of business, or at least renders it ineffective locally.

### CALVERT WON GAME.

In the baseball game at Calvert yesterday afternoon, the Calvert team defeated the Allen Academy team of this city by a score of 10 to 1.

## STATES HE IS DANGEROUS

On the Stand Acting Superintendent of  
the State Institution Gives Details of  
the Conversation He Had With the  
Slayer of White.

Poughkeepsie, N. Y., May 15.—Dr. Amos T. Baker, acting superintendent of the state hospital for the criminal insane at Matteawan, testified in the Thaw case Friday that in his opinion Thaw is insane. Dr. Baker said he believed it to be dangerous to the public safety to have Thaw go at large.

Dr. Baker was called by District Attorney Jerome to give to the court a statement of Thaw's conduct during the three months he was in the Matteawan institution, beginning Feb. 1, 1908. Dr. Baker related conversations with Thaw in which the latter told of epilepsy and nervous ailments suffered by a sister and uncle of Thaw, witness said. He also told of the desultory way in which his education was acquired. At seven years of age, he said, he had St. Vitus dance. He described an attack of pneumonia at Monte Carlo, concerning which he did not agree with the diagnosis of his physicians. Thaw told Dr. Baker that he used alcohol in moderation and denied ever using drugs. Witness said Thaw described his movements preceding the shooting of White, his return from Europe and marriage to Miss Nesbit.

Thaw told witness that at his trial some doctors greatly exaggerated their estimate of his condition.

Dr. Baker said Thaw said to him: "If I was ever insane in my life the attack began the minute I shot White and ended half a minute after."

Dr. Carlos F. McDonald, an alienist, testified that in his opinion Thaw is an incurable paranoiac, whose confinement is demanded by considerations of public safety.
